

Announcements 02/10

- Assemble your project teams ASAP!
 - https://docs.google.com/spreadsheets/d/1SctHGUn0Wgs2bNBdtcTl9sdrvVYvouhIG5B-5_HanaQ/edit?usp=sharing
 - Then, meet me in person about your ideas
 - Generative AI to group people without team by Feb 24 (one week before Proposal due)

My two cents on biomedical data science research

- Interests motivate and scientific problems drive
- Think logically (step by step), and Ask fundamental questions
 - *What?*
 - *Why?*
 - *How?*
- Start from simple
 - *Scientific discovery by correlation vs. 2% accuracy improvement by “deep/large/big” models*
 - *Rigorous & reproducible*
- Teamwork >> Hero
- Patience and Resilience
 - *Nonlinear trajectory and No wrong path*
 - *Away from social media videos on teaching “success”*
 - *You are unique*
- Enjoy Life and Family!
