

The Course Project

- 1 page proposal due in-class on February 22
- see the course web site for some project suggestions
- what to cover in the project proposal
 - The goal of the project. What are you investigating? What are your hypotheses?
 - What algorithms/methods will you implement?
 - What experiments will you run? What data sets will you use? What will you vary/compare in your experiments? What will you measure?
- I recommend you talk to me in person before writing your proposal
