

# Announcements 3/15

- Read Sharan and Ideker (2006)
  - Network comparison
- Optionally read Cho et al (2012)
  - Network biology
- Midterm solutions will be discussed in class Thursday
- Project proposals due Thurs 3/17 by 11:59 PM
  - No late days allowed
  - But you can submit before 3 PM Friday without penalty

# Announcements 3/15

- Seminars of interest:
  - Tues Mar 15 at 4 PM, Biotechnology Center Auditorium
    - Laurence Loewe, University of Wisconsin-Madison
    - “How to simulate time series in gene regulatory networks using Evolvix”
  - Tues Mar 15 at 4 PM, 2535 Engineering Hall
    - Varun Jog, University of Pennsylvania
    - “Modeling stochastic networks: Sharp thresholds and persistent phenomena”
  - Wed Mar 16 at 12:30 PM, Orchard View (3280) WID
    - Po-Ling Loh, University of Pennsylvania
    - “New Perspectives in Robust, High-Dimensional Statistics”
  - Wed Mar 16 at 2 PM, 1220A/B Biochemical Sciences
    - Sunyoung Shin, University of Wisconsin-Madison
    - “Annotation Regression for Genome-Wide Association Studies with an Application to Psychiatric Genomic Consortium Data”
  - Wed Mar 16 at 2 PM, Orchard View (3280) WID
    - Shravan Sukumar, University of Wisconsin-Madison
    - “Markers of specificity in protein-DNA interactions”
  - Thurs March 17 at 10:30 AM, Orchard View (3280) WID
    - Christian Shelton, University of California Riverside
    - “Marked Point Processes and Intensive Care Data”
