Announcements 5/2

- HW4 due today
- Project report guidelines posted
  - No late days for project
  - Interpret the results, do not just list what you did
  - Pay attention to the rubric
  - Separate project_report and project_supplement handin directories
  - Do not upload your input data
  - Make sure the files are readable
    - `chmod g+r <file>`

Final Exam

- Midterm on Sunday, May 5 12:25-2:25pm
- Computer Sciences 1257
- Two sheets of notes allowed
- No calculators
- Covers material from Epigenomics through Thursday's lecture (Multiple Whole-Genome Alignment)
  - Focus on material from lectures and required readings
- Similar format as midterm

Course evaluations

- Should come as an invitation via email
- Please complete the evaluation by the due date!
  - At the very least, complete the numerical ratings
  - Written comments are more helpful, but not required
